This year's educational forum will present health and wellness issues that pertain to residents of color in Prince George's County. The forum will align with Nation's priorities to educate residents to improve their health outcomes/access to affordable health care.

Some of the forum's presentations will include:

- **diabetes management**
 - **breast cancer**
 - **prostate cancer**
 - **renal disease**
 - **mental health**
 - **access to health care**
- and more ...
